REPORT FOR THE WEEK OF 21 - 25 APRIL

To:

STATINTL

From:

1. Fifth and final meeting of OSI Intelligence Reporting course.
2. Spent two days interviewing individually members of the OSI Intelligence Reporting Course to secure a thorough understanding of the report writing problem we are attempting to solve. The basic problem is not unusual. The problem is basically administration. A full report will be made on this project as an aid in planning future series of meetings for this course.
3. As a member of the special sub-committee of the Interagency Committee on Area and Language Specialists, attended a meeting at the Foreign Service Institute.

STAT

The problem of this sub-committee is to define the types and grades of area-language specialist so that needs may be expressed by the various agencies in terms of specific levels of personnel.

There will probably be three major levels of area-language expertness.

The State Department members of the committee are drafting a report to be discussed at the next meeting in about three weeks.

4. Working on various aspects of closing out UTG/A by approximately 30 June.
